

Networked Water Meter

Master : **HT68F50 + HT71D04**

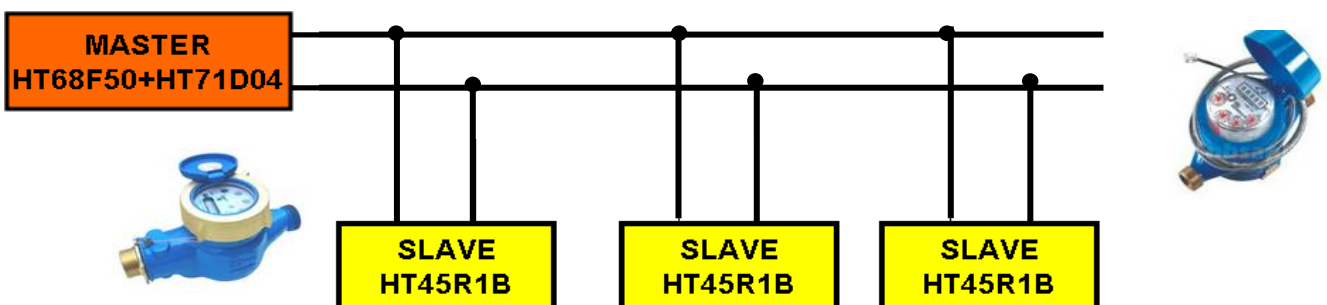

Slave : **HT45R1B**

Characteristics

- Master
 - ◆ Flash program memory
 - ◆ High maximum input voltage : 30V
 - ◆ Includes internal 5V regulator
 - ◆ Supports half-duplex communication for single to multiple devices
 - ◆ Complete data transmission on power lines
 - ◆ Supports ICP
- Slave
 - ◆ Detects water meter value
 - ◆ High maximum input voltage : 30V
 - ◆ Includes internal 5V regulator

Application Areas

Wide Range of Interconnecting System Applications
