Revision History

BS66F340/350/360/370 Touch A/D Flash MCU with LED Driver

Revision # 1.61 Modifications made on November 11, 2021

- The Development Tools section was added.
- The Instruction Set and Instruction Set Summary sections were modified.

Revision # 1.60 Modifications made on August 20, 2019

- The product description was modified.
- In the Pin Assignment section, the package unbounded pin note was added.

Revision # 1.50 Modifications made on March 18, 2019

- In the Selection Table and other related sections, the BS66F360 28-pin SOP package was removed.

Revision # 1.40 Modifications made on December 15, 2016

- The word "EEPROM" was changed to "true EEPROM" in the Features and General description sections.

Revision # 1.30 Modifications made on May 18, 2016

- The BS66F370 was added to the BS66F340/350/360 series.

Revision # 1.20 Modifications made on May 15, 2015

- In the A.C. Characteristics section, the f_{HIRC} symbol was modified.
- In the TSC3 Register section, the bit 5 description was modified.
- The Application Circuits section was modified.

Revision # 1.10 Modifications made on March 4, 2015

- In the Compact Type TM – CTM section, in the PWM Output Mode for the 10-bit CTMn, PWM Mode, Edge-aligned Mode, the CTnDPX=0 table was modified.

Revision # 1.00 This was posted on November 21, 2014
